

Summary CHUPS and PSI

Françoise Mulhauser

CHUPS Upgrade

- ✓ Upgrade for a working system. What is missing?
- ✓ Contact Sacha and Gennady about the Humidity Sensor.
- ✓ Series of tests to find impurity origine.
- ✓ If no HS, do we use the getter?
- ✓ How to add water for any calibration?
- ✓ Contact Claude and Russians for connecting TPC-PNPI to CHUPS
- ✓ Addition of Pd filter
- ✓ How can we improve the LN₂ filter filling
- ✓ Can we use CHUPS 1.a like CHUPS 1 for humidity comparison with Run8

PSI Tasks

- ✓ Floor and Walls shields from MEG
- ✓ Extension of LN₂ pipe towards the zone
- ✓ Arrangement for cables when entering the zone
- ✓ Electronics for ePCs control during summer tests
- ✓ Space in experimental hall for both experiments
- ✓ Mount the soft-wall clean room
- ✓ Russians visit at PSI: who, when, how long
